

39,000+

churches ran their services this week on software we
build and **give away free.**

160+ countries

\$0 cost to any church

16 new churches every day

*"It's not a technology problem.
It's a **stewardship** problem."*

The Church spends over **\$1 billion a year** on for-profit software while the poorest churches go without. We build the tools once and share them free.

CHURCHAPPS IS 100% POWERED BY GENEROUS DONATIONS.

Less than **40¢ a month** serves one church.

\$50 a month serves over 130 churches every Sunday.
